It indures to make and female, persons between the ages of infect and sixty years, a trekty income at the rate of 100 per cent, upon amounts anawally deposited; in cases of dispublication for business by reason of sixtheses or accident. For instance, a person paying \$5 a year, insures to bimself \$5 (or, 100 per cent.) for every wark; allness within that year, These benefits are independent of whatever divideads may amountly account to the insured.

\$2 00 per Annum, draws \$2 00 per week,

The main design of this company is to enable product and discrete persons of small means, to make provision while in health, by a trilling outley, against the agent and enferings that inevitably invalue a tick bed, in easy on of percentary privation and of insbility to labor. A vast amount of human wirethedroses has been prevented or intigated, within a the present generation, by the establishment, in Europe, of similar president institutions; and within a chart jeed 3, this system of Health Insurance has been verteduced into cure was country, with results, thus far, equally beneficial to all whose relief it contemplates—more especially to those who tail disjy for their daily inrad, and to whom any interruption by sickness legomes a serious and discressing calantity.

By this system, also, one prison ray insure the health of another—a parent that of a child, or a child, but a parent—an employer that of a workman, or of an apprentice, see. Thus, those who are able, by a small inmediate investment, may refiere themselves from the hazard of incurring the content of the child in the distance of the child in the distance of the parent.

are able, by a small immediate investment, may reflect themselves from the hazard of incurring heavy burthens, inflicted involuntarily by those who might otherwise become dependants upon them for continued care and support.

While the most inmuse and benevalent dispositions of mankind are subserved by every association of this describing, its beneficiaries are exampled from being placed in the degraded condition of recipicates of the beamy definites. For, by the contract into which they easily they purchase and fairly carn all the benefits which they may demand, as a matter of just and legal right; adjusted and another of the subsection of the research provided, the satisfactory refection is but, but the price of their own immunity by been applied to the comfort and survey of their less Lettmate feel or beings.

BY CHARSTON & NORMAN 127 THAMES STREET.

MONDAY MORN'G, MARCH 15, 1852.

DIRECTIONS TO VOTERS.

Que readen munt bear in mind that at the approaching April election they will vote, for the first time, under the new Law, which is familiarly known au the "Secret Bellet Law" As the mode of voting is entirely new, and as the provisions of the Law are such that many, notwithstanding the greatest precaution, will be very liable to lose their votes, we seed it our duty to state, as briefly as possible, and yet comprehengively, the prominent provisions of the law, and what will be required of the electors. We have ulready, expressed our dislike to the Law, as a childish foolish and embarrassing affair; yet, while it remains in force, it is the duty of every good citizen strictly to comply with it.

The Tewn Council will appoint two soitable persons to take charge of and deliver the envelopes; these persons must be at the place of voting when the Polls open, and must remain there until they close. Every voter must apply to one of them, in person, for an envelope and these men can only deliver one of each kind of envelopes to such persons as they know to be voters, by an examination of the Registry, and us they deliver the envelopes, they must check the names on the Registry list. The envelone in which you will place your ticket for State officers, will have the cont-ofarms of the State upon fe; and that in which you place your ticket for Memhers of the Assembly, will have upon i the arms of the State, and also the words "for Senater and Representatives."

Having obtained these you place your tickets in their respective envelopes, and then wet the gum and press the cavelops together so as to seal it but you most be careful not to write your name on the ticket, as the law has heretofere required, because, il you do, the ticket will be destroyed without be ing counted, when the polls are closed; if you accidentally place two tickets of the same 'kind in the same envelope your ticket will be lost, as it is the duty of the Moderator, to destroy all such ; i the envelope bears any impression or device or color, designed to distinguish such envelope from others of the sanie kind," it is the duty of the Moderator to Preject it with all its contents."

Having prepared your envelopes,- as you go up to the bullot, box, you call out your same distinctly, and the Moderator repeats it about, and then sauses the same to be checked on the Registry; you then hold up the envelope so that the Moderator can distinctly see that you have but one in your hand, and also that it bears no muck or device by which it may be distinguished from the others. Having gone through with all this ceresiony, you will then deposite your envelope in the opening on the top of the ballot box. .

All voters must be careful in preparing their ballots, not to soil them or make any impression upon them, by which they may be distinguished, because al such votes will be lost.

We are thus particular in stating, or briefly as possible, the main features of the new law, because we presume that the majority of voters will not take the trouble to read the law carefully through, and theroughly understand what they have to do. The law is ridiculous, and the sonnerit is repealed, the better it will be for all concerned. It affords no security in elections which did not previously exist; the perplexities of this eystem are incumerable, and the "chances of many persons losing their votes, atthough they may have deposited them in the ballet ben in good faith, are very great. The above directions must in all cases be strictly complied with, by every voter.

The Board of Canvaccers meet at the Town Hall this atorning, at 10 o' clack, for the purpose of correcting the List of Voters for the April election; we trust that come of our Whig friends from various parts of the town, will be present to see that the locofocos do no smuorde any names upon the list which do not belong there. We do not know where Lieut Governor Lawrence pro poses to vote this year, as he has resi ded in Providence all winter; it is very difficult to keep traces of him, for first he joint 498 Broadway, New York, then at Ochre Point, in this town, and then at South Main street, Providence. Neither place is willing to own him.

IF The editor of the Providence Herald, Tour. Darr, speaks of Lieut. Gov. Lawrence as Mr. Lawrence. Why in this disrespect shown? Is the "right ful" Governor Dorr jealous of the ambitions General Lawrence? Are we to have a was among the Gorerners?

acces. The chartes are intuited at \$225—193406, 56 when subscribed for, \$5 on one before the day of distribution, and the bulance in monthly instances in \$3.
The lots are situated in the Village of LaKE-LaKP on the Long Island Railroad, County of Suffally, and \$4 mbs from the city of New York, where handsome buildings are erected, and the Railroad Company contemplate making a large depot for the termination of the early and late trains between that place and Brooklyn. It is one of the healthiest places in the United States, and within one mile of Roikoukoun Lake, a beamtiful sheet of water about three miles in circuisforence, of singular transparency, and of great depth, with an alternative of field. The Village is but 4 miles distant from the great South Bay, which is 5 miles with end 40 miles long, about drult supplied with oysters, clams, and fish of various kinds.

'These leads will produce as much per acre, with the same cultivation, as any kand within fifty miles of the city of New York.

Several gerts men of the first respectability who have lately visited Lakeland and extanined the crops then growing there, declare that the wheat, eye, corn, pointees und gaiden vegetables, are equal to any they have seen in any part of the country, proving conclusively that the sell is capible of producing, and that in the highest perfection, all that the ngicelwarist can wish or desire. Wheat of the same quality, which grows here lawningly was raised by Mr. Suewel Thempson, of Schuket, last year (about 8 miles from his place) who received for the product of a little more than two succes, \$500.

Lakeland Station is located on the borders of the Long Island Bailroad, whence care from seen and hundred and fully every, and where similar lands sell at from \$60 to \$200 per acre.

Apply to CHAS. WOOD, Stationer, 171 John street, mar Pearl, Ni Y., who will receive room of mail. They will also givatuitionally formin maps and painphetes of the property, and 'cheerer the miles for the property and 'cheerer cally give such other i
